

Swift™ LT for Her

NASAL PILLOWS SYSTEM

The first mask designed for women

Uniquely styled and patterned

Easy hair management

Special fit range to suit women

Minimal contact, optimal stability

Super-quiet performance

Patterned headgear
in a soft, appealing colour

Dual-wall nasal pillows
seal on contact for a gentle, comfortable seal; thin outer layer enhances comfort, thick inner layer provides stability

Flexible cushion base
enables the nasal pillows to move in multiple directions without compromising seal

360° rotating elbow
provides flexibility in tube position

Quiet vents
diffuse and direct airflow quietly away from the user and partner

Flexible lightweight tube
minimises 'pull' on the mask, increasing stability

Unique removable tube retainer on top buckle
offers three lock-in positions to set the desired tube direction with a simple twist action

Back strap with soft buckle
offers a low-profile easy-to-adjust, flexible fastener

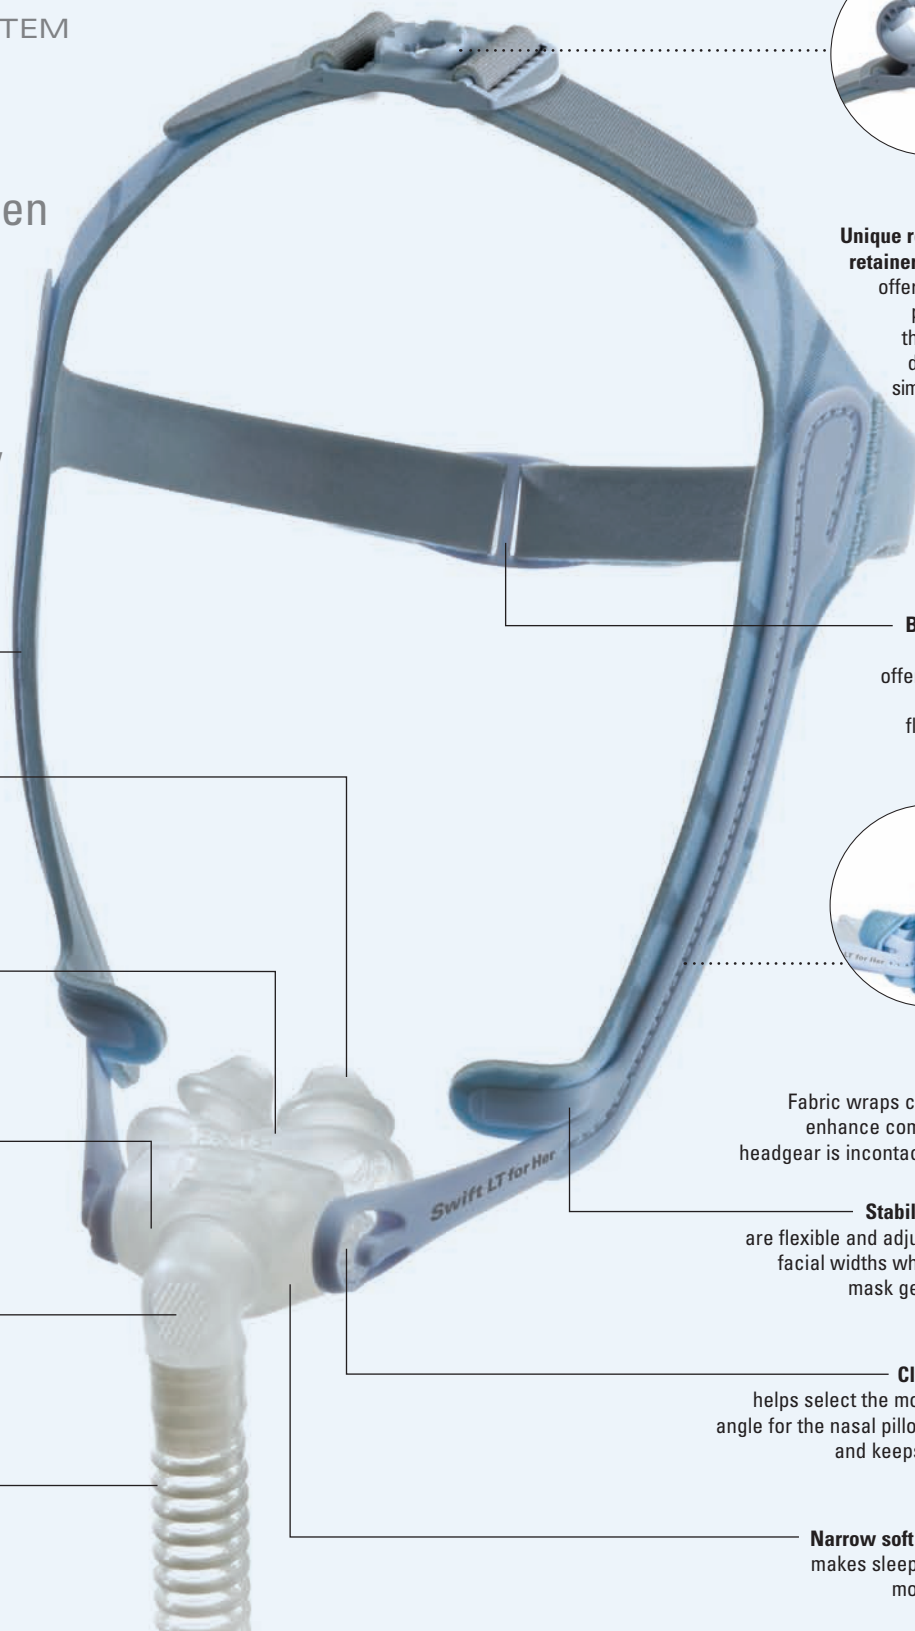

Soft Wraps
Fabric wraps can be added to enhance comfort where the headgear is in contact with the face

Stabilising elements
are flexible and adjust to individual facial widths while keeping the mask gently in position

Click-fit adjustor
helps select the most comfortable angle for the nasal pillows on the face and keeps them in place

Narrow soft silicone frame
makes sleeping on the side more comfortable

HAIR MANAGEMENT MADE EASY

Ergonomic back strap

- Swift LT for Her has a low-profile back strap with a soft buckle for easy handling. Hair sits neatly either, tied or untied, under or over the back strap.

Minimal design does not unsettle hair

- Users can feel—and look—more like themselves in the Swift LT for Her. The stylish and streamlined design has only slightly more contact with the hair than most fashion accessory hairbands.

USER BENEFITS

Easy hair management

- Whether the user wears her hair short or long, tied or untied, the headgear allows easy hair management.

Freedom of movement with stability

- Dual-wall pillows on a flexible cushion base apply minimal contact on the face and accommodate movement without compromising seal.
- The click-fit adjuster and stabilising elements hold the mask in a comfortable and stable position.

Personalised fit

- The click-fit adjuster enables the user to position the nasal pillows at the most suitable angle for her facial profile.

Choice of sleeping positions

- Swift LT for Her users can sleep on their side or their back, with a choice of tube positions and the tube retainer option.

Quiet performance for quiet sleep

- Innovative vent design delivers super-quiet mask performance—only 25 decibels.*

PROFESSIONAL BENEFITS

Quick to fit

- Swift LT for Her is quick and easy to fit, saving time for clinicians and sleep professionals.

Reduced inventory, fit range for women**

- The system comes packed with three pillow sizes, (including an Extra-Small size) to suit women, reducing inventory.

Easy product handling

- With very few parts, the system is easy to clean and assemble.

Convenient to recommend or prescribe

- User guide and online support facilitate training for users and staff.

Patient compliance

- Designed for patient satisfaction, comfort and ease-of-use to improve compliance.

* Testing conducted per ISO 3744:1994 at 10 cm H₂O

** Based on ResMed's anthropometric studies

Fit range designed to suit women

Swift LT for Her comes packed with three sizes of nasal pillows—medium, small and extra-small to cover most female users.
